## REPORT OF THE SCHOOLS.

---

In all lines of interest, whether of the individual, or of the community, there comes a time for the summing up of results. As a town, we have come to our annual "taking of stock" and balancing of accounts to find how we stand with ourselves and with the world.

As regards our schools—aside from mere statistics—it is difficult to put into words a just and adequate statement. Words convey so little; education means so much; stands so high in the scale of values; is the one interest by which we are most closely bound. The dullest must see, that in this line, it is for our personal interest that the Golden Rule be applied to the limit.

We may congratulate ourselves that our schools have been able in the past, and are still able to fit pupils for entrance to High School and Academy, and that these pupils take high standing, not only in scholarship but in character. Our schools must never

lose sight of the fact that what a pupil is in himself, in principle, and in reliability, is of infinitely more importance than what he knows.

In the spring of last year—under the then existing conditions—it was thought best by the Board of Education to unite school No. 5 with school No. 1. This was done, but conditions have changed.

There are now children of school age at such distant points in the district, that it will make the problem of transportation more complicated than in the past. This, with other reasons, will probably make it wise to reopen the school in District No. 5 at the beginning of the Spring term.

The law of New Hampshire requiring a town to pay the tuition of pupils attending High School or Academy within the state, if such payment is asked—the town not having such school of its own—brings up the question, if it would not be well to raise sufficient to meet this need in addition to the sum usually appropriated.

If the schools are shortened there will be still greater difficulty in securing good teachers and the result will be such deterioration in the primary school that it will no longer fit for the higher.

MARY C. BERRY,  
*For the Board of Education.*

GEORGE S. BUTLER,  
*For School Board.*

Before closing this report we, the members of the School Board, whose terms of office do not expire with the present year, wish to put on record our appreciation of the services

of Mrs. Mary C. Berry as a member of the Board whose term of office expires March, 1903.

We feel that the thanks of the whole Town are due her for the deep interest and loyalty she has shown in the cause of education and her earnest endeavors for the advancement of everything pertaining to the welfare of our common schools.

When broached upon the subject of her bill for services as a member of the School Board for the past three years, she replied that she had no bill to present. That the Town was welcome to her services. Not only this but we are aware of a number of instances where she has purchased maps and various school supplies and presented to the different schools with no charge therefor.

In view of these facts we think it but justice to her and the cause of our common schools, that we, as members of the Board and in behalf of the Town School District, tender to her our heartfelt thanks.

GEORGE S. BUTLER,  
SUSAN M. SMITH,

*Members of School Board.*

# ELEVENTH ANNUAL REPORT

OF THE

## PELHAM FREE PUBLIC LIBRARY.

---

### TRUSTEES' REPORT.

---

The annual report of the Library Trustees this year must of necessity, in many respects, be similar to its predecessors. We are happily able to announce that there has been no abatement in the library's prosperity and usefulness, and our hopes of last year in regard to the more rapid acquisition of books has, in a degree, been realized. The library has been the recipient of two generous gifts of books from out of town friends, aggregating in all nearly three hundred volumes, principally of the latest publications. On account of the addition of these new books, your trustees deemed it advisable to postpone the regular purchase of new books, which usually takes place in January, to a later date.

There remains in the treasury, at this time, after paying all bills, a balance large enough to purchase quite a few books. Had it not been for the appropriation of fifty dollars additional to the usual amount last year, we

should have been left with a very small sum for this purpose. We hope the appropriation will be no less this year.

We wish to express our thanks to those who have presented the library with books. Especially to Mr. Reuben Griffin of Haverhill, who gave one hundred choice volumes of the latest publications, and to Christopher Columbus Webster and wife, of Wakefield, who presented the library with one hundred and eighty-nine volumes of valuable works with a very valuable black walnut book case, and we assure them and others that their generosity is fully appreciated by the public.

The purchase of our usual yearly addition of books will probably soon be made, which, although it will of necessity be smaller than usual, will make our increase in number of volumes this year very satisfactory.

The trustees purchased, last spring, a set of the new thirty-one volume edition of the *Encyclopædia Britannica*, which has been placed in the reading room for reference. It is rather unfortunate that our reference books can not be accessible at all times to the public, but at present we can see no way that this can be satisfactorily brought about.

Now, that a new lot of books are soon to be bought, is a good time to hand in lists of books desired; it would be a great help to us in making our selections.

A list of books added the past year will be published in the town report.

The prospects of the library continue bright and we can foresee no lapse in its steady growth in size and usefulness. Trusting that the people of the town will continue their interest in and support of the library we confidently look forward to its steady development.

With best wishes for the library this report is respectfully submitted.

SHERMAN HOBBS,
